CERTIFICATE

Springboard certifies that

Abraham Woycke

has successfully completed

Data Science Career Track

A 500+ hour online course that covers Python Data Science Stack, SQL, Data Wrangling, Data Visualization, Statistical Inference, Advanced Machine Learning, Deep Learning, and Data Science at Scale. Abraham participated in weekly live 1:1 mentoring sessions with an industry-experienced Data Scientist, and successfully completed two final projects, "Korean Baseball Organization Player Projections" and "National Basketball Association Game Outcome Classifier" that was reviewed by an independent industry expert.

Mini-Projects Completed	Topics Covered
Guided Capstone	Python Programming
Two end-to-end Capstones	SQL & Database Management
Python Data Science Stack Project	Data Wrangling
SQL queries Project	Statistics for Exploratory Data Analysis
Frequentist Inference Project	Machine Learning
Linear and Logistic Regression Projects	Data Storytelling
Machine Learning Projects	Deep Learning
Time Series Analysis Project	Machine Learning Model Deployment
Spark (Databricks) Project	Natural Language Processing
	Image Processing
	Data Science at Scale
